

Rubberband Man

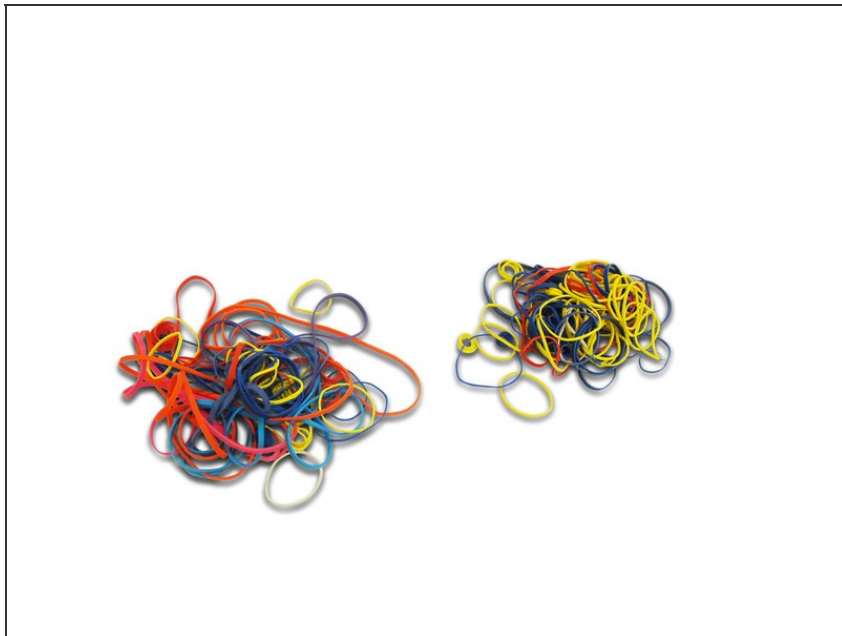

Written By: Preston Moeller

PARTS:

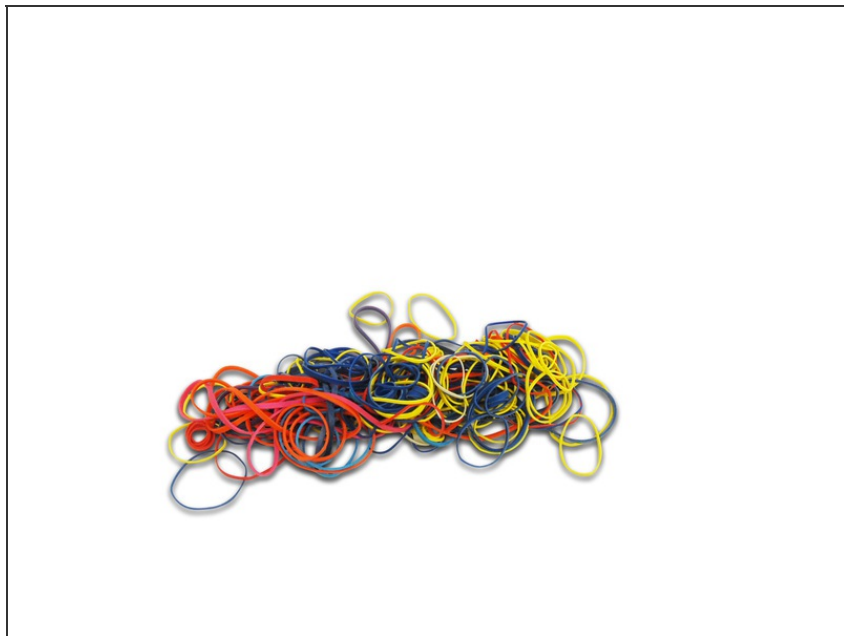

- [Rubber bands \(1\)](#)

Step 1 — Rubberband Man

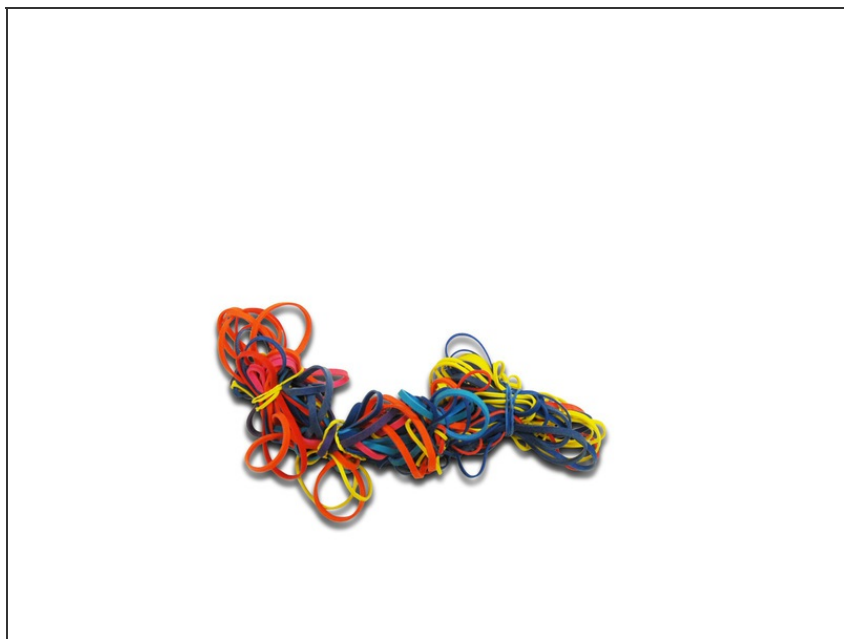

- The basic steps to the method start with making two piles of rubber bands.

Step 2

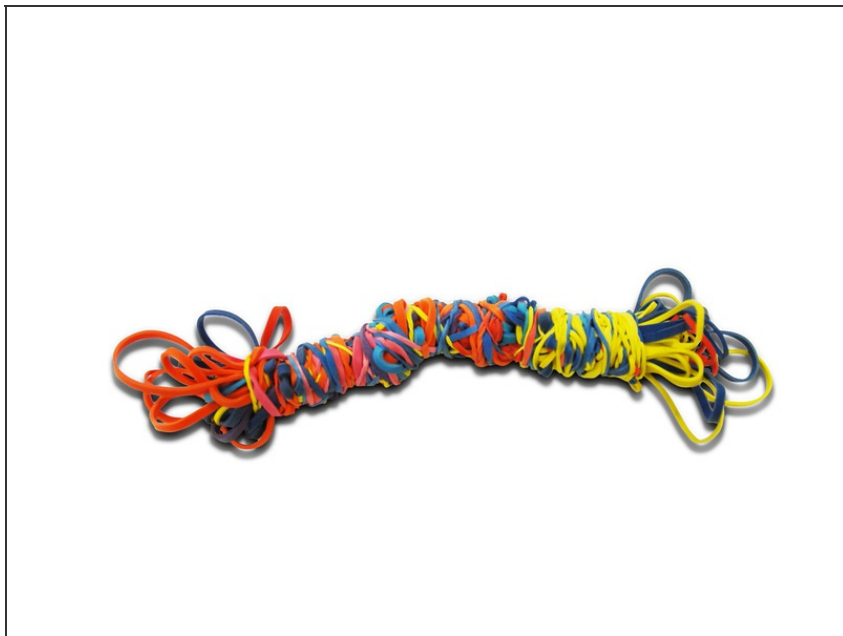

- Next you need to cross the piles so that the rubber bands overlap in the middle.

Step 3

- Now wrap a few rubber bands around the overlapping parts to keep them together.

Step 4

- Lastly, take the loose rubber bands and wrap them back around the pile till they are all nice and tight. This will knot them all together and make it strong.

Step 5

- Make Rubberband Man's arms and legs in the same way and attach them with more rubber bands. Form a ball of rubber bands at the top for his head.
- Make several Rubberband Men and some musical instruments for them, and make a Rubberband Man Rubber Band!
